EXPERIENCE

AthleteIQ | Founder & Lead Engineer

Jan. 2026 – Present

- Built and deployed a multi-tenant AI sports platform, live since January 2026 with 20 coaches and about 370 athletes. First documented deployment of ACWR injury-risk monitoring at an Indian grassroots academy, written up as a peer-reviewed deployment study.
- Solo full-stack build (React, FastAPI, PostgreSQL with row-level security, Groq LLM). Wrote the risk engine: ACWR, a personalised baseline-deviation method covering ACWR's 28-day cold start, and a coach-versus-athlete deception check.

NVIDIA, Quadro Team | AI Automation Engineer

Jul. – Dec. 2025

- Found and fixed a deep-learning verification model failing under changing ambient lighting in a production GPU-driver test pipeline, unblocking regression checks that had been failing silently. Built the Python test automation across 150+ testcases (OpenCV, Playwright, PyTest, Docker), retained as the team's standard QA tooling.

Persistent Systems | Software Development Intern

Oct. 2024 – Apr. 2025

- Shipped modules for an enterprise client application in Agile sprints with full unit-test coverage.

PUBLICATIONS (First AUTHOR)

Subject-Disjoint Cross-Dataset Evaluation of CNN and CNN-LSTM Models for Visual Driver Drowsiness Detection | MAI 2026, Springer LNEE

Accepted · [Project Page](#)

- Cross-dataset evaluation under subject-disjoint splits, a stricter protocol than standard within-dataset benchmarks.

A Deployed AI Platform for Athletic Performance Monitoring and Injury-Risk Detection in Indian Grassroots Sports Academies | IEEE INDISCON 2026

Under review · [Project Page](#)

- Deployment study of AthleteIQ: system design, adoption, and the practical limits of ACWR monitoring without wearables.

Cross-Corpus Robustness of Prompt-Injection Detection | AISec @ ACM CCS 2026

Under review

- In-distribution accuracy of 0.92 falls to 0.61 cross-corpus across five independently sourced corpora, under a leakage-free protocol.

A Smart Helmet for Two-Wheeler Navigation under GNSS Denial: Route-Aware Dead Reckoning and Road-Scene Segmentation | IEEE INDICON 2025

Under review · [Project Page](#)

- 19.7% lower peak position error than unaided dead reckoning across 47 paired GNSS blackouts on an instrumented road ride ($p=0.002$); 0.856 road IoU on unseen BDD100K.

A Reversible PII-Redacting Proxy for DPDP-Compliant Use of Third-Party LLM APIs | IEEE DELCON 2026

Under review

EDUCATION

MIT World Peace University, Pune | B.Tech. in Computer Science and Engineering

Oct. 2022 – May 2026

- CGPA 7.96/10.0 · **GRE 329/340** (Quant 168/170) · IELTS 7.5
- Best All-Rounder Award** (University Gold Medal) for excellence in academics and extracurricular activities. Best Incoming Student Award, MIT-WPU (2022).

PROJECTS

SkillMatch | Two-Sided Hiring Marketplace

[Project Page](#)

- Availability-aware k-NN and semantic matching with explainable scores; contact gated behind mutual interest. React, FastAPI, PostgreSQL, Docker.

LinguaNova | Multilingual AI Language Learning

[Project Page](#)

- Gemini-based speech-to-text language tutor. 3rd of 150+ teams, RenAIssance Hackathon.

SKILLS

Languages: Python, JavaScript, C++, SQL | **ML & AI:** PyTorch, TensorFlow, scikit-learn, XGBoost, OpenCV, SHAP, NLP

LLMs & GenAI: Groq, LangChain, HuggingFace, RAG, prompt engineering | **Systems:** FastAPI, React, Supabase, Docker, GitHub Actions, PyTest

ATHLETICS & AWARDS

Shiv Chhatrapati Award, the Government of Maharashtra's highest sporting honour. **9x National Gold Medalist** and National Record Holder, inline skating.

World Games 2024: Silver and Bronze for Team India, inline skating. World ranked 6th and 7th (2024). Asian Games 2023, 7th, Team India.

Hackathons: RenAIssance (3rd of 150+), Vishwanava National (17th of 500+), HackAIthon (3rd), Data Quest (2nd).
